

I recently received a letter from station K-LOVE that has me quite concerned. LPFM stations could result in leaving hundreds of thousands without the numerous valuable benefits of K-LOVE. K-LOVE serves myself and my local community through its family-focused programming and rich positive messages. In today's world where there is so much focus on the negative and scandalous, we need K-LOVE! K-LOVE serves public interest by providing wholesome values. It effectively encourages all listeners to better people, and isn't that what we all want.

Please allow K-LOVE to continue to make this world a better place. Our world needs all the help that it can get!

We only get one lifetime, live it right!

Thank you for your heartfelt consideration!

Julie Monroe
